PROJECTS

Planorant - Premier Planner
Feb 2024 - Present

https://planorant.com

- Valorant team management web application. Manage teams, weeks and members, invitation codes, live chat, and online users list, with Google Auth0 for authentication.
- React, Node.js, Express.js, Socket.IO, TailwindCSS, MongoDB. Deployed with 50+ registered users. In development. Repository.

Open Source Development
Present

- Building a portfolio of projects that follows industry trends and practices.
- Constantly enhancing my skills, actively learning, and integrating new technologies and features into my projects.

EXPERIENCE

Fullstack Developer   *Several Energy SL*
Dec 2023 - Jan 2024

- Developed the Backend and Frontend of a web application for an energy consulting firm.
- Collaborated with UX/UI, Marketing, Data Science, and DevOps teams.
- Agile methodology and collaboration using Git and Figma.
- Participated in client meetings and presentation of results.
- Received an offer to join the team as a full-stack developer in a permanent position to continue with my project design and implementation. The offer was declined due to new location incompatibility.

Internet Safety Evaluator   *Telus Inc.*
Jan 2020 - Dec 2023

- Websites and online content evaluation, quality control, optimization of Google's search engine.
